

PLANT PHYSIOLOGY, acetic acid, indoleacetic acid, gibberellic acid, PHILIP G. See Epstein, Brandeis University, tables, K. See Sakai, ROBERT M. See Lanitican, THOMAS C. Kinetics, J. W. See Zaerr, protein synthesis, Martin Gibbs, THOMAS C. Biosynthesis, Abbreviations, S. See Sakai, J. E. See Jacobsen, ZOHARA, J. E. See Chrispeels, MICHAEL H. See Schiff, Thermal conductivity, the manuscript, illustrations, manuscript, JOSEPH A. Senescence, HARLAN K. See Von Abranis, HERBERT D. Aspects, D. J. D. See Brownell, P. H. See Reid, L. G. See Cohen, N. See Nortura, GEORGE S. Struction, W. See Berrie, PETER C. Opposing, A. Survival, LOYD E. Determination, KARL H. See Poff, A. Chlorophyll, RALPH H. Synthesis, GEORGE A. Absorption, LEONARD L. See Watada, DAVID L. Isolation, H. S. See Tuli, WERNER J. Studies, THOMAS C. See Anderson, J. R. Temperature, T. See Nomura, L. G. Physiological, DAVID L. Conversion, Guy C. See Terborgh, T. Biosynthesis, tissue slices, American Institute of Biological Sciences, Committee, ALICE J. Effects, HOMER S. Interactions, C. See Srinivastaza, STANLEY P. Inhibition, LUKE S. See Johnson, BONNER, S. P. BURG, GRAHAM J. Proserpinaca, FLOYD M. See Penner, D. Correlative, STANLEY P. Ethylene, ROBERT S. See Lac, BENEDICT C. R. See Cooper, F. B. Inhibition, R. T. See Willallace, photosynthesis, MICHAEL S. Photosynthesis, F. B. See Holm, DONALD K. Biosynthesis, JEROME A. SCHIFF, JAMES S. Inhibition, R. Comparative, ELLIS T. See Bendich, ARNOITD J. Relatedness, F. B. SALISBURY, ATP synthesis, Roy E. Phosphorylation, ALLEY E. Growth, A. J. See Patterson, JACK G. Effect, BURTON E. See Hutchini, C. Footnote References, fatty acid synthetase, BURG, ERNEST G. Organic acid, MICHAEL H. RNA Metabolism, seed germination, MAARTEN J. Gibberellic, DAVID T. Modification, HAROLD H. Formation, EDWIN G. See Fitzgerald, J. B. BIALE, JOSEPH E. VARNER, CHARLES F. Flowering, BARBARA S. See Johnson, BRUCE A. See Taylor, S. W. See Turrell, DONALD G. See Idso, J. A. Translocation
